Experience

Accenture 04.2025 – Present
Product Engineering Analyst

- Designed AI agents for SAP SRE workflows with access to live ServiceNow data and indexed data in PostgreSQL. Used RAG with semantic search to assess planned changes, detect conflicts between changes, and propose incident resolutions.
- Implemented business logic to automate ServiceNow RITM and incident workflows, including account provisioning and order verification. Integrated microservice APIs and data operations, processed events from Azure Queue Storage, and added application logging.
- Modeled order processing and return workflows in Camunda BPMN and implemented them in Java and Spring using hexagonal architecture. Used MariaDB for persistence, implemented OAuth 2.0 authorization, developed a back-office interface in Java with Vaadin, and worked on CI/CD workflows for application deployment.

Skills

Languages: Java, Kotlin, Python
Backend: Spring Boot, Hibernate, FastAPI, FastMCP
Testing: JUnit, pytest, mutation testing
Databases: PostgreSQL, MariaDB
Messaging: RabbitMQ, Azure Queue Storage
Orchestration: Camunda BPMN, Rundeck
Security: FIDO2/WebAuthn, OAuth 2.0, elliptic-curve cryptography, OWASP Top 10
Engineering practices: SOLID, ACID, OOP, FP, DDD, TDD, SDD
AI development tools: Claude Code, GitHub Copilot, BMAD Method
Build and infrastructure: Maven, Gradle, pip, uv, Azure, Docker, Git

Personal projects

File Storage System GitHub

- Developed a Spring Boot backend, React and TypeScript frontend, and Windows desktop application using WinFsp to mount file storage in Windows Explorer.
- Implemented file and directory management, FIDO2/WebAuthn authentication, and OAuth 2.0 and JWT-based API authorization.
- Applied hexagonal architecture to separate business logic from infrastructure; used PostgreSQL for metadata and MinIO for file content.

Education

- **Warsaw University of Technology**
  Faculty of Electronics and Information Technology, Cybersecurity 2022 - 2027

Languages

- **Polish,** native language
- **English,** B2 ACERT Certificate 2023

Interests

- **Football**
- **Cryptography**
- **Astronomy**
